CANADIAN STUDIES IN POPULATION

Canadian Studies in Population recently published its latest [open-access issue](#) on-line. The Special Issue – Guest Editor, Gustave Goldmann – presents new demographic research, with select papers from the 2015 conference of the Federation of Canadian Demographers. The research articles in this issue include:

- Gender inequality in the family setting – Roderic Beaujot, Jianye Liu, and Zenaida Ravanera
- Non-residential fatherhood in Canada – Lisa Strohschein
- Changing BMI scores among Canadian Indigenous and non-Indigenous children, youth, and young adults: Untangling age, period, and cohort effects – Piotr Wilk, Alana Maltby, and Martin Cooke
- Immigrants' initial firm allocation and earnings growth – Wen Ci and Feng Hou
- Individual and community-level determinants of retention of Anglophone and Francophone immigrants across Canada – Michael Haan, Jake Arbuckle, and Elena Prokopenko
- The moderating effect of sociodemographic factors on the predictive power of self-rated health for mortality in Canada – James Falconer and Amélie Quesnel-Vallée.

The Editors thank the Strategic Research Directorate of Indian and Northern Affairs Canada for its generous sponsorship and support.

UPCOMING CONFERENCES

The 28th International Population Conference of the IUSSP will take place this autumn, from October 29 to November 4, 2017 in Cape Town, South Africa. The conference will be preceded by several 1-4 day workshops and side-meetings on diverse topics. such as:

- Measuring geolocated demographic parameters with remote sensing data;

- Bayesian methods for population projections;
- Social Media and demographic research; and
- Computational social science and demography.

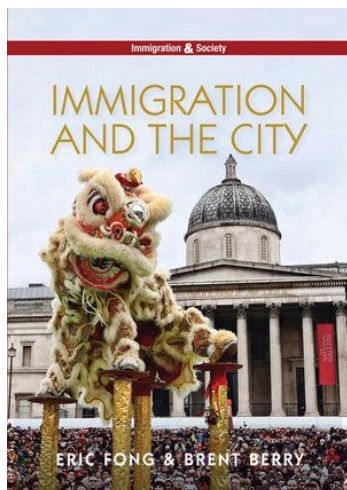

This conference occurs once every four years and is a major event in population studies, bringing together roughly 2500 population specialists around plenary sessions, debates, and about 240 scientific sessions. Several topics will be emphasized; these include cutting edge advances in methods and data (especially within the framework of the Data Revolution and the UN SDG agenda) and international migration. The [preliminary program](#) is now available.

28th Annual Warren E. Kalbach Population Conference – February 9, 2018. The 28th Kalbach Conference will be held at Concordia University of Edmonton (CUE). Please refer to the [conference webpage](#) for additional information.

ANNOUNCEMENTS

Mihalcheon School of Management. In Fall 2017, the Mihalcheon School of Management at Concordia University of Edmonton will be commencing with a new Bachelor of Management, with an emphasis on data management. One of the new courses offered in the new emphasis is Business Demography (Instructor: Dr. Alison Yacyshyn). Please visit the [school's webpage](#) for further details on this exciting new program.

The Prentice Institute. The Prentice Institute for Global Population and Economy is seeking applicants for a two-year post-doctoral fellowship. These fellowships will begin in Fall 2017 or January 2018 or whenever suitable applicants are selected. See the [application webpage](#) for further details about this opportunity.

Eric Fong and Brent Berry have published a volume entitled *Immigration and the City*. In this insightful book, Fong and Berry describe both contemporary patterns of immigration and the urban context in order to understand the social and economic lives of immigrants in the city. By exploring topics such as residential patterns, community form, and cultural influences, this book provides a broader understanding of how newcomers adapt to city life, while also reshaping its very fabric.

Chapters include: Residential Patterns; Housing Attainment and Ownership; Immigration and Ethnic Communities; Immigrant Business and Ethnic Economies; and much more!

EMPLOYMENT OPPORTUNITIES

University of Alberta. The Department of Sociology, Faculty of Arts, invites applications for a full-time tenure-track position at the rank of Assistant Professor in the broadly defined area of Work, Economy, and Society. Sub-areas of desired expertise include but are not limited to: work, occupations, and professions; socioeconomic inequality and the life course; care and unpaid work; economic sociology; and global political economy. Strengths in statistics and quantitative methodologies will be considered an advantage. The appointment will begin July 1, 2018.

Baylor University. Pending final budgetary approval, the Department of Sociology is recruiting one tenure-track sociologist for August 2018. Preferred career stage is advanced assistant professor, but we welcome applications from beginning scholars as well. We seek a sociologist who specializes in health and/or family. This individual will be expected to teach undergraduate and graduate courses and contribute substantially to a doctoral program that presently has two emphases: sociology of religion and community analytics (formerly, applied sociology). We are actively building in the health and society area, and it has become a third focus of our graduate training.

Clemson University. The Department of Sociology, Anthropology, and Criminal Justice invites applications for a tenure-track assistant professor positions beginning August 2018. Applicants should have a PhD in Sociology by the time of appointment. Specializations of interest are social policy and health including (but not limited to) medical sociology, the social determinants of health, social psychology, mental illness, disabilities, addictions, and/or child and adolescent well-being.

Denison University. The Department of Anthropology and Sociology invites applications for a tenure-track position beginning August 2018. A Ph.D. in Sociology by August 2018 is required. We seek a sociologist whose work is both empirically rigorous and theoretically sophisticated. Desired areas of expertise in research and skills are in quantitative methodology (especially in descriptive and inferential statistics) and in large scale datasets. Additional expertise from a global perspective should include one of the following three foci: 1.) stratification 2.) crime and law or 3.) social justice.

University of Iowa. The Department Sociology at the University of Iowa invites applications for a tenure-track Assistant Professor position, which would commence in August 2018. We seek candidates with expertise and research interests in the use and/or development of computational statistics, big data analytic techniques, network analysis, data visualization, automated text analysis, machine learning, spatial and longitudinal analysis, demographic techniques, or other areas of social data analytics.

Queen's University. The Department of Sociology at Queen's University invites applications for a Tenure-track faculty position at the rank of Assistant Professor with specialization in social inequalities with the ability to teach one or more of the following: family, health, and/or work, with a preferred starting date of July 1, 2018.

Rice University. The Department of Sociology at Rice University, located in Houston, Texas, invites applications for a tenure-track position at the Assistant Professor level to begin July 2018. Applicants must have a PhD, or PhD requirements fulfilled by November 1, 2018 in sociology or a related field. Areas of specialization are open, but we particularly seek applicants who can teach statistics at the graduate level. Our faculty engages in research pertaining to social inequality and/or culture, and we welcome applicants that will enhance and/or expand this focus.

Western University. Building on our main area of strength in Population Dynamics and Social Inequality, the Department of Sociology at Western invites applications for two probationary tenure-track faculty positions in Social Stratification. We expect to hire at the Assistant Professor level, but applications from exceptional, experienced candidates at higher academic ranks will be considered. The starting date for these appointments is July 1, 2018 or as negotiated.
