Charles Fleury, Université Laval

Investigating the spatial dynamics of fertility rates in Canada
Kyran Cupido, St. Francis Xavier University
Don Kerr, Kings University College at Western University

*Obituaries as an alternative source of data for mortality
Pietro Violo, Université de Montréal
Nadine Ouellette, Université de Montréal

BREAK 11:30am – 12:00pm (serving light lunch)

1.3 Special session: What is applied demography and why does it matter?
Wednesday, May 31, 12:00pm – 1:30pm
Location: Ross Building (R S137)
Session Organizer: Doug Norris, Environics Analytics
Session Chair: Amélie Quesnel-Vallée, CPS President, McGill University

This session is intended to describe the many uses of applied demography and show how demographers can play an important role as data analysts in many organizations. The session will consist of a panel of three CPS demographers who have had decades of experience in working on applied data problems and issues. Each will present their own experience and provide examples of some of the applications they have worked on. There will also be a question period following the three presentations.

Panelists:
*David Swanson, Portland State University
Doug Norris, Environics Analytics
*Alison Yacyshyn, Concordia University of Edmonton

Discussant: *Jan Kestle, President, Environics Analytics

BREAK 1:30pm – 1:45pm

Session 1.4 COVID19
Wednesday May 31, 1:45pm – 3:00pm
Location: Ross Building (R S137)
Session Chair: Lorna Marsden, York University

Homelessness in the District of Nipissing, Ontario, Canada before, at the onset and during the COVID-19 pandemic: A trend analysis (2018-2021)
