Canadian Population Society

Volume 39 (1), Spring 2014

Editor's Desk

The countdown to Congress 2014 has started! The 83rd Congress of the Humanities and Social Sciences will be held at Brock University, May 24 – 30. The theme of this year's Congress is "Borders without Boundaries," which refers to the geographic proximity of Brock to the U. S. border as well as the need to traverse the traditional boundaries between the disciplines that comprise the social sciences and humanities.

A bird's eye view of the Brock University St. Catharines campus located on the Niagara Escarpment

INSIDE THIS ISSUE:

Editor's Desk	1	CSP Bulletin	10
Statistics Canada	3	Announcements	13
PCLC News	5	CPS People	15
CPS Students	7	Meeting Program	Appx.

The Congress program offers exciting special events in addition to the proceedings of the numerous professional associations that will gather in St. Catharines. This includes the “Big Thinking” lecture series, with topics of interest to demographers, such as Catherine Dauvergne’s lecture on the new politics of immigration and Cindy Blackstock’s lecture on the inequalities that affect First Nations families. The Congress program also includes the *Career Corner* professional development workshops. These workshops are a resource for graduate students and emerging scholars to learn about publishing their research and acquire techniques for lesson planning and classroom teaching. The full schedule of Congress events and activities can be viewed on the [Congress website](#), where attendees can also register online.

Of course, the Congress program also includes the 2014 CPS annual meeting, to be held from May 28th to the 30th. This year’s CPS program offers an excellent slate of sessions on immigration, family, methods, social diversity, and health and mortality. The preliminary program is appended to this issue of CPS News. On behalf of the CPS membership, I offer our collective gratitude to the program chair, Alain Bélanger, and the session organizers for putting the program together. Besides the paper sessions, other highlights of the meeting are:

- **Tuesday, May 27.** The Graduate Research Development Conference. Organizers: Stacey Hallman, Laura Wright, and Maxwell Hartt. The CPS graduate conference is co-organized with the PCLC.
- **Wednesday, May 28.** CPS Banquet. The banquet will be held at the Syndicate restaurant from 6:30 – 9:00 pm. Please pre-register for the banquet to reserve your seat.
- **Thursday, May 29.** President’s Reception, 5:00 – 7:00 pm.
- **Friday, May 30.** CPS Annual General Meeting.

I hope that everyone has a pleasant meeting in St. Catharines and finds the time to enjoy the many attractions that the “Garden City” has to offer.

This year marks the 40th anniversary of our society’s academic journal, *Canadian Studies in Population* (CSP). The journal was established in 1974 by Dr. P. Krishnan with support from the Population Research Laboratory at the University of Alberta, the Society of Edmonton Demographers, and the SSHRC. From the beginning, the journal has been presided over by some of the most distinguished Canadian demographers. The original editorial board included luminaries such as Nathan Keyfitz, Jacques Henripin, Warren Kalbach, and Anatole Romaniuk. Our appreciation goes to the past and present editors, editorial board members, and contributors for

creating and maintaining this outlet for publishing Canadian demographic research. At this year's banquet, let us toast to our 40 years of research excellence.

Last year, the CPS joined the blogosphere. The [CPS Blog](#) is another outlet for keeping the CPS membership connected and for disseminating news and updates in a timely manner. The blog is hosted on the CPS website and is edited by our webmaster, Don Kerr. The blog editor invites submissions in the form of letters, research updates, short articles, discussion papers, and links to demography-related research. Please send your blog posts directly to the webmaster.

STATISTICS CANADA UPDATES

New Microdata Files

Since the last edition of CPS News, the following microdata files have been added to the RDC collection:

- 2011 National Household Survey (NHS)
- 2012 Canadian Survey on Disability (CSD)
- 2012 Aboriginal Peoples Survey (APS)
- Longitudinal and International Study of Adults 2012 (Wave 1) (LISA)
- Canadian Survey of Economic Well-being 2013 (CSEW)
- Programme for International Student Assessment 2006 & 2009 (PISA)
- Survey of Household Spending 2010-2011 (SHS)
- Canadian Tobacco Use Monitoring Survey 2011-2012 (CTUMS)
- Canadian Community Health Survey: Rapid Response on Food Skills – Knowledge, Planning and Transference of Skills, 2012
- Future to Discover Pilot Project

Longitudinal Data

The development of longitudinal data files comprised of information from both administrative and survey sources offers new potential for examining economic trajectories and outcomes over extended periods of time. Three studies released by Statistics Canada since early January 2014 highlight the use of such data. Two of them

document the long-term labour market outcomes of individuals with different levels of educational attainment, while the third documents the employment trajectories of older workers following their exit from long-term jobs.

- Long-term Labour Market Premiums Associated with a Terminal High School Diploma. [Click here](#) to view report.
- An Investment of a Lifetime? The Long-term Labour Market Premiums Associated with a Postsecondary Education. [Click here](#) to view report.
- Employment Transitions Among Older Workers Leaving Long-term Jobs: Evidence from Administrative Data. [Click here](#) to view report.

Pooled Data

Pooling data from multiple surveys is one strategy for obtaining a sufficient sample size to support analyses of small geographic areas or for population subgroups. In a recent study, Dr. Feng Hou pooled data from recent cycles of the General Social Survey and the Canadian Community Health Survey to investigate the relationship between average income in geographic areas and people's life satisfaction.

- Feng [Hou](#), Life Satisfaction and Income in Canadian Urban Neighborhoods.

Other Recent Studies

- Martin [Beaulieu](#), Demographic Changes in Canadian Agriculture.
- Evelyne [Bougie et al.](#), Unintentional Injury Hospitalizations and Socioeconomic Status in Areas with a High Percentage of First Nations Identity Residents.
- Feng [Hou](#) and Garnett Picot, Annual Levels of Immigration and Immigrant Entry Earnings in Canada.
- [Anne Milan et al.](#), Emerging Trends in Living Arrangements and Conjugal Unions for Current and Future Seniors.
- Maire [Sinha](#), Parenting and Child Support after Separation or Divorce.
- [Wages, Youth Employment, and School.](#)

Guides and Estimates

Since early January Statistics Canada released the following concepts and methods guides as well as demographic estimates for sub-provincial areas and fourth quarter population estimates:

- Canadian Survey on Disability, 2012: "[Canadian Survey on Disability, 2012: Concepts and Methods Guide.](#)"
- Aboriginal Peoples Survey, 2012: "[Aboriginal Peoples Survey, 2012: Concepts and Methods Guide.](#)"
- [Annual Demographic Estimates](#): Sub-Provincial Areas, 2006 to 2013.
- Demographic estimates by province and territory for the fourth quarter of 2013 are available in CANSIM tables [051-0005](#), [051-0017](#), [051-0020](#), [051-0037](#), [051-0045](#) and [053-0001](#).

— Grant Schellenberg

POPULATION CHANGE AND LIFE COURSE STRATEGIC KNOWLEDGE CLUSTER UPDATES

PCLC Funds "Big Picture Synthesis" Projects

The PCLC's [Big Picture Synthesis Series](#) supports the review of existing research knowledge and the identification of knowledge gaps in a format accessible to a particular audience, primarily government policy-makers. Following its first Call for Proposals in November 2013, the Cluster granted funds to 4 projects:

- Health Inequalities among Older Adults in Developed Countries: Policy Implications. Amélie Quesnel-Vallée (McGill University) and Andrea Willson (Western University).
- The Healthy Immigrant Effect in Canada and Elsewhere: What do We Know and What Should We Know? Zoua Vang (McGill University), Alain Gagnon (Université de Montréal), Astrid Flénon (Université de Montréal), and Jennifer Sigouin (McGill University).

- Ethnic Identity among the Children of Immigrants. Zheng Wu and Christoph M. Schimmele (University of Victoria).
- Vivre et travailler plus longtemps dans une société vieillissante: Vers une croissance des inégalités? (Living and Working Longer in an Aging Society : Toward Increasing Inequalities?). Yves Carrière and Jacques Légaré (Université de Montréal).

A second Call invites proposals by April 15, 2014 on topics that differ from those already covered in the first round.

Graduate Students Hold Conference on Migration & Settlement

[“Mobility and Immobility: Interdisciplinary Perspectives on Migration and Settlement”](#) is the theme of a PCLC-funded event organized by graduate students of Western’s Centre for Research on Migration and Ethnic Relations and Ryerson’s Centre for Immigration and Settlement. The Conference at Western University on April 3 includes presentations of research on theories, settlement and integration, homeland and displacement, and migration policies. Dr. Sedef Arat-Koç of Ryerson University gives the keynote address, “Exaltation of a Shrinking Citizenship: Depoliticizing and Disciplining Citizenship in the New Hard Times.”

Participatory Research on Immigrants and Refugee Women Presented in Photovoice Exhibit

In [“Do you see what I see?” Photovoice Exhibit](#), participant-generated photographs with captions and short narratives are displayed in a gallery in Brantford, Ontario to show how employment impacts the health of immigrants and refugee women coming from various parts of the world. It aims to bring up community issues, to reach employers and policy makers, and to assist in the integration of immigrants and refugees. The exhibit, partly funded by the PCLC, is a project of Bharati Sethi of Wilfrid Laurier University and runs from April 4 to April 30.

Graduate Students Receive Grants for Travel to International Conferences and Workshops

In the [January 15 2014 Student Competition](#), 12 students were granted travel funds to present papers in in the Annual Meeting of the Population Association of America in Boston; Colloque de l'Association internationale des demographes de langue francaise in Bari, Italy; the International Sociology Association World Congress of Sociology in Yokohama, Japan; and at the QICSS International Conference Social Policy and Health

Inequalities in Montreal. Two students also received travel funds to attend workshops in LIVES Life Course Winter School in Les Diablerets, Switzerland.

— Zenaida R. Ravanera

CPS STUDENTS

Grad School Options

Hello again! I'm Staci Silverman, a recent graduate of the department of sociology at the University of Alberta. I'm interested in health policy, aging, community engagement, and population studies. I plan to go to graduate school to learn more about these topics. I hope you will join me as I investigate my options for graduate school and review some of the top graduate schools in Canada that offer degrees in areas related to demography or population studies. Last time, I reviewed the graduate program at McGill University. This time, I explore Southern Alberta to have a closer look at the [Prentice Institute](#) at the University of Lethbridge.

The Prentice Institute for Global Population and Economy at the University of Lethbridge became fully operational in 2009. Students interested in population studies and demography have the opportunity to work with supervisors from the Institute's 25 Research Affiliates and can pursue an interdisciplinary masters degree focused on population studies, population health, or various aspects of global issues. Since graduate degrees are administered by the School of Graduate Studies, masters and PhD students from a variety of disciplines including Sociology, Economics, and Geography can study with a supervisor from the Prentice Institute. An interdisciplinary PhD in Demography is offered with a second PhD in Population Studies and Health in the approval stage.

The Prentice Institute has a brown bag seminar series about once a month that provides opportunities for students and faculty to learn about current research in the field of population studies and demography. Presenters come from the Institute's Research Affiliates and other researchers from the University of Lethbridge and elsewhere. As well, the Prentice Institute has a Distinguished Lecture series, which recently brought in the former Chief Statistician of Canada, Dr. Munir Sheikh, as guest speaker.

In terms of resources, many of the researchers associated with the Prentice Institute have substantial research grants, which graduate students link with to get

training in research and opportunities to co-author reports and articles. The Institute has an active contingent of post-doctoral fellows with international research interests who help create a research-positive learning environment for graduate students. Graduate students and post-docs associated with the Prentice Institute have two informal seminar series: a mentoring seminar where questions and tips about careers are posed and a substantive seminar where seminal research articles are discussed.

Students interested in obtaining a master's degree at the University of Lethbridge in the area of demography or population studies can apply to the MA or MSc program or choose an individualized multidisciplinary option which allows students to take courses and pursue research across many disciplines. All students complete a thesis as the main requirement of the graduate program. Prospective students must find a supervisor for their graduate studies prior to applying for admission to the program. The Prentice Institute has 25 Research Affiliates at the University of Lethbridge and an increasing number across Canada and the world. Prospective students interested in demography or population studies should look for a supervisor from the list of research affiliates.

The main campus of the University of Lethbridge. Established in 1967, the university has an enrolment of 8600 undergraduate 520 graduate students and 500 academic staff.

To obtain a PhD in demography at the University of Lethbridge, students must find a supervisor before they apply to the graduate program. Prospective demography students can work with a supervisor who is associated with the Prentice Institute and can create a schedule of interdisciplinary courses to complete their PhD. Some PhD Demography students interested in topics in Population Health work with supervisors from the Health Studies faculty. PhD students must also have their thesis topic approved by the end of the first year of their program. The specifics are then developed as the student moves through the program. Written and oral comprehensive exams are required as a step toward PhD Candidacy.

Graduate students can apply to work as teaching or research assistants in the department associated with their supervisor. All masters and PhD students accepted at the University of Lethbridge receive some funding from the School of Graduate Studies, and typically from research grants of their supervisors as well. All graduate students at

the University of Lethbridge can apply for awards and scholarships while bursaries and grants are given based on academic performance.

Graduate students are strongly encouraged and mentored to publish while pursuing graduate studies. The research-focused environment of the Prentice Institute enables graduate students to present at conferences and to publish in journals.

Next time, I'll review the graduate program at the University of Alberta. If you have any suggestions for other universities that I should research and write about in an upcoming edition of CPS News, please feel free to send an email to either myself (staci@ualberta.ca) or Lisa Strohschein (lisa.strohschein@ualberta.ca).

— Staci Silverman

Training Opportunity

The Prentice Institute for Global Population and Economy, University of Lethbridge, is seeking applicants for a Masters-level student researcher beginning in Spring or Fall 2014 or whenever a suitable applicant is chosen. Training opportunities are offered as part of an international research team supported by a SSHRC Partnership grant on *Care Migration*.

Student Requirements:

- Must have quantitative methodological expertise and the capacity to do international comparative analysis.
- Must show evidence of quantitative research skills.
- Should have recently completed a Bachelor's degree in a social science discipline.
- Research interest in East Asian is an asset.

Interested candidates should send the following documents to [Nancy Metz](#), Prentice Administrative Assistant:

- A cover letter outlining the "must have" quantitative skills.
- A resume outlining relevant experience and education in quantitative research.
- Two reference letters from faculty who can attest to your quantitative research skills.

Following an initial vetting, an application to Graduate Studies will also be required.

CSP Reviewers for 2013

I take this opportunity to thank those who reviewed papers for Volume 40. Their willingness to devote part of their busy schedule to the Journal is gratefully appreciated. The following people served as referees for Volume 40:

Priya Agrawal, Harvard School of Public Health, Boston
Alain Bélanger, INRS - Urbanisation, culture et société, Montreal
Betman Bhandari, Centre for Affordable Water and Sanitation Technology, Calgary
John Biles, Citizenship and Immigration Canada, Ottawa
Don DeVoretz, Simon Fraser University, Vancouver
Barry Edmonston, University of Victoria
Kristyn Frank, Statistics Canada, Ottawa
M.V. George, Emory University, Atlanta
Rohini Ghosh, Public Health Foundation of India
Jean-François Godin, Human Resources and Skills Development Canada, Ottawa
Gustave Goldmann, University of Ottawa
Stephen Gyimah, Queen's University, Kingston
Michael Haan, University of New Brunswick, Fredericton
Darcy Hango, Statistics Canada, Ottawa
Feng Hou, Statistics Canada, Ottawa
Lauren J. Krivo, Rutgers, The State University of New Jersey
Bill Marr, Wilfrid Laurier University, Waterloo ON
Susan McDaniel, University of Lethbridge
Kevin Milligan, University of British Columbia, Vancouver
Herbert Northcott, University of Alberta, Edmonton
Victor Piché, Université de Montréal
Amélie Quesnel-Vallée, McGill University, Montreal
K.V. Rao, India Network Foundation
Mark W. Rosenberg, Queen's University, Kingston ON
Arun Kumar Sharma, Indian Institute of Technology, Kanpur
Ken R. Smith, University of Utah
Marc Termote, Université de Montréal
Rosemary A. Venne, University of Saskatchewan, Saskatoon
Ravi Verma, Carleton University, Ottawa
Yan Wei, Xi'an University of Finance and Economics
Lori Wilkinson, University of Manitoba, Winnipeg
Zheng Wu, University of Victoria
Yoko Yoshida, Dalhousie University, Halifax
Yan Yuan, University of Alberta, Edmonton

ANNOUNCEMENTS

Conferences

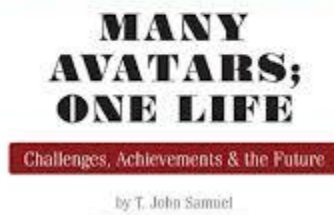

Population Association of America. The PAA will hold its 2014 meeting from May 1-4 in Boston Massachusetts.

European Population Conference. The European Association for Population Studies and the Hungarian Demographic Research Institute will hold their 2014 conference from June 25-28 in Budapest, Hungary.

Member News

Roderic Beaujot. Rod Beaujot presented a paper entitled “Family Diversity and Inequality: the Canadian Case” in August 2013 at the IUSSP meeting in Busan, Korea. A draft of the study is [available here](#). He has also contributed to the PCLC Blog, commenting on immigration and the population of Canada. His contribution can be read on the [cluster website](#). His other recent activities include a presentation on migration and ethnic relations given at the University of Western Ontario.

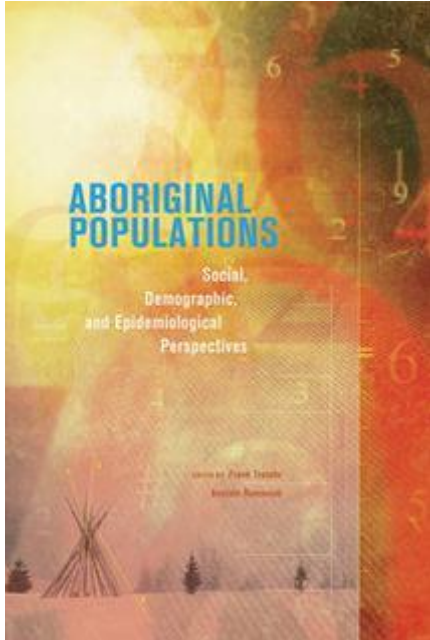

Md Kamrul Islam. Md Kamrul Islam recently defended his PhD dissertation (University of Alberta) entitled *Immigration and Fertility: A Comparative Analysis of Alberta and Canada*. Dr. Islam has accepted the position of Assistant Professor in the Department of Population Sciences at the University of Dhaka, Bangladesh.

John Samuel.

Many Avatars; One Life: Challenges, Achievements, & the Future. 2013. Vancouver: Friesen Press.

Last November, John Samuel launched his memoirs, *Many Avatars; One Life*. The book documents Dr. Samuel's many incarnations ranging from a farm boy driving a bullock cart in a rustic village to a jetsetter for the Canadian government, the United Nations, and the ILO. The book narrates his life's journal as a Canadian immigrant as well as discussing his career as a demographer. The book includes 40 photographs.

Frank Trovato.

Aboriginal Populations: Social, Demographic, and Epidemiological Perspectives. 2014. Edmonton: University of Alberta Press.

Frank Trovato has co-edited (with A. Romaniuk) a volume on Aboriginal populations. The core theme of the volume is that Canada's Aboriginal population has reached a critical stage of social demographic development from a situation in the past characterized by delayed modernization, extreme socioeconomic deficit, and minimal control over their demography, to a present point of social, political, economic, and demographic ascendancy.

Russell Wilkins. Russell Wilkins has had an active 2013, co-publishing numerous articles on health, mortality, and other topics. These include:

- Socioeconomic Inequalities in Cause-Specific Mortality: A 16-Year Follow-Up Study, *Canadian Journal of Public Health* (with M. Tjepkema and A. Long)
- Mortality Following Unemployment in Canada, 1991-2001, *BMC Public Health* (with C. A. Mustard et al.)
- Neighborhood Income and Neonatal and Sudden Infant Death Syndrome (SIDS) Mortality in Canada, 1991-2005, *Canadian Journal of Public Health* (with N. L. Gilbert et al.)
- Data Resource Profile: 1991 Canadian Census Cohort, *International Journal of Epidemiology* (with P. A. Peters et al.)

The Editor welcomes submissions of updates from the activities of CPS members. Have you been promoted, received an award, or changed your employment status? Send the particulars to chrissch@uvic.ca so that we can inform your CPS colleagues about your news. The newsletter is also a good place to promote new books.

Tuesday, May 27, 6:00 PM – 8:00 PM

Location: Wellington Court
11 Wellington Street
St. Catharines, Ontario
L2R 4W9
Tel – 905.682.5518

CPS COUNCIL MEETING (For CPS Council members)

Chair: Eric Fong (University of Toronto)

**CANADIAN POPULATION SOCIETY, 2014 ANNUAL MEETING
PAPER SESSIONS: WEDNESDAY-FRIDAY, MAY 28-30**

WEDNESDAY, May 28

Wednesday, May 28, 8:45 AM – 10:30 PM

Location: Glenridge Building A - 162

Session 1.1: METHODS AND POPULATION PROJECTIONS

Session Chair: Barry Edmonston (University of Victoria)

Organized by: René Houle (Statistics Canada)

1. Guillaume Marois and Alain Bélanger (Institut national de la recherche scientifique). SiDéLo: A Small Area Population Projection Model Using Ecological and Contextual Parameters.
2. Patrice Dion, Nora Bohnert and Jonathan Chagnon (Statistics Canada). Innovations accompanying Statistics Canada's forthcoming Population Projections for Canada, Provinces and Territories 2013 to 2041.
3. Daniel Telake, Matthew Till and John Rietschlin (Employment and Social Development Canada). Old age dependency ratio projections under the LifePaths microsimulation model.
4. Tom Perks (University of Lethbridge). Obesity and its relation to employment income: Does the bias in self-reported BMI alter the relationship?

Wednesday, May 28, 10:45 AM - 12:00 AM

Location: Glenridge Building A - 162

**Session 1.2: IMMIGRATION AND MIGRATION RESEARCH USING NEW DATA AT
STATISTICS CANADA**

Session Chair: Michael Haan (University of New Brunswick)

Organized by: Michael Haan (University of New Brunswick)

1. Bonikowska, Aneta (Statistics Canada), Feng Hou (Statistics Canada), Garnett Picot (Statistics Canada). New Immigrants Seeking New Places: The Role of Policy Changes in the Regional Distribution of New Immigrants to Canada.
2. Schellenberg, Grant (Statistics Canada), and Yuqian Liu (Statistics Canada). Inter-provincial employment: Long-term trends and inter-provincial migration.
3. Haan, Michael (University of New Brunswick) and Yuqian Liu (Statistics Canada). A Lifetime of Mobility: Insights from the 1991 Census-Longitudinal Worker File.

Wednesday, May 28, 12:00 AM - 12:30 PM

Break – Pick up Lunch box for the lunch session sponsored by the Population Change and Lifecourse Strategic Knowledge Cluster (PCLC)

Wednesday, May 28, 12:30 AM - 2:15 PM LUNCH SESSION

Location: Glenridge Building A - 162

Session 1.3: IMMIGRATION AND LABOUR MARKET

Session Chair: Barry Edmonston (University of Victoria)

Organized by: Michael Haan (University of New Brunswick)

Discussant: TBD

1. Sano, Yujiro (Memorial University). How Do Employment Patterns of Immigrants Differ between New and Traditional Immigrant Gateways: Comparisons Between Atlantic Canada and Three Largest Cities.
2. Wanner, Richard (University of Calgary). The “Great Recession” and Immigrant Labour Market Outcomes: Results from the Canadian Labour Force Survey.
3. Hong, Jangman (University of New Brunswick). Disadvantage or Upward Mobility?: The Self-Employment Incomes of Immigrants and Minorities

Wednesday, May 28, 2:30 AM – 4:30 PM

Location: Glenridge Building A - 162

Session 1.4: IMMIGRATION AND MIGRATION

Session Chair: Michael Haan (University of New Brunswick)

Organized by: Michael Haan (University of New Brunswick)

1. Kim, Ann H. (York University), Reem Attieh (York University), and Benjamin Christensen (York University). Shifting the data landscape for immigration studies in Canada: Limitations and opportunities in the non-profit sector.
2. Shen, Jing (University of Lethbridge), Charles Jones (University of Toronto) and Susan McDaniel (University of Lethbridge). Generation Status, Peer Exposure, and Risk of Violent Behaviour among Youth in Canada.
3. Liu, Jinju (Beijing City University), and Wei Chen (People’s University of China). Floating Migration in China: A Life Table Analysis.
4. Islam, Mohammad Mainul (McGill University), Anita J. Gagnon (McGill University). Access to Reproductive Health Care for Urban Migrant Women in Bangladesh.
5. Edmonston, Barry And Sharon M Lee (University of Victoria). Residential Mobility Of Elderly Canadians:Trends And Determinants

Wednesday, May 28, 6:30 PM - 9:00 PM (cash bar)

CPS BANQUET

Location: Restaurant The Syndicate
332 Ontario Street, St. Catharines
ON L2R 5L8
Phone: 905-228-3199

The restaurant is about 12 minutes by cab from Brock University.

Please note that there is one other restaurant by the same name in Niagara Falls, we have reserved the one in St. Catharines.

THURSDAY, May 29

Thursday, May 29, 8:45 AM - 10:15 AM

Location: Glenridge Building A - 162

Session 2.1: FAMILY AND FERTILITY: DOMESTIC VIOLENCE

Session Chair: Gustave Goldmann, (University of Ottawa).

Organized by: Benoît Laplante (Institut national de la recherche scientifique)

1. Parveen Nangia (Laurentian University) Intimate partner abuse in Canada
2. Collins Nwabunike and Eric Tenkorang (Memorial University). Domestic and marital violence among the three major ethnic groups in Nigeria.
3. Bali Ram, Arun K. Sharma, Abhishek Singh and Awdhesh Yadav (Indian Institute of Technology Kanpur). Family size and spousal physical violence against women in India: Selection or causation

Thursday, May 29, 10:30 AM – 12:00 AM

Location: Glenridge Building A - 162

Session 2.2: LONE-PARENT HOUSEHOLDS: COMPLEXITY, DIVERSITY AND CHANGE

Session Chair: Lisa Strohschein, University of Alberta

Organized by: Lisa Strohschein, University of Alberta

Discussant: TBD

1. Gustave Goldmann, (University of Ottawa). Aboriginal lone-parent families and their socio-economic challenges: The child's perspective
2. Lisa Strohschein (University of Alberta) Children born to single, never-married mothers: What do we know? What do we need to know?
3. Charles Jones (University of Toronto) and Jing Shen (University of Lethbridge). Children and union dissolution in Canada
4. Constance T. Gager (Montclair State University), Scott T. Yabiku (Arizona State University), and Miriam R. Linver (Montclair State University). The effect of parental marital conflict and status on adult child relationship status: A comparison of single, married, and divorced parents

Lunch Break, May 29, 12:00 AM - 1:00 PM

Thursday, May 29, 1:00 PM - 2:45 PM

Location: Glenridge Building A - 162

Session 2.3: FAMILY AND FERTILITY

Session Chair: Rachel Margolis (University of Western Ontario).

Organized by: Benoît Laplante (Institut national de la recherche scientifique)

1. Arzu Sardarli (First Nations University of Canada) and Frank Trovato (University of Alberta). Role of environmental factors in forming seasonal fertility oscillations.
2. Atsu Dorvlo and Zainab Al-Belushi (Sultan Qaboos University, Sultanate of Oman). Changing Fertility in Oman.
3. Mohammad Mainul Islam and Anita J Gagnon (McGill University). Marrying early in Bangladesh: Determinants and issues on reproductive health and human rights.
4. Mariona Lozano , Céline Le Bourdais (McGill University) and Dana Hamplová (Czech Academy of Sciences). Parental perceived stress and work-family balance: The effect of non-standard schedules.

Thursday, May 29, 3:00 PM – 5:00 PM

Location: Glenridge Building A - 162

Session 2.4: FAMILY AND FERTILITY: LIVING ARRANGEMENTS AND RELATED ISSUES

Session Chair: Rachel Margolis (University of Western Ontario).

Organized by: Benoît Laplante (Institut national de la recherche scientifique)

1. Xin YUAN and Yingtan MU (Nankai University). Analysis on the differences of living arrangement between single-child and none single-child in China. Base on difference decomposition of logistic regression.
2. Zenaida Ravanera, Fernando Rajulton and Roderic Beaujot (University of Western Ontario) Women at midlife in Canada: Pathways to living alone and their impact on well-being
3. Lu Chen (Nankai University) and Peter C. Coyte (University of Toronto). The influence of informal care on labour market outcomes for married women in China.
4. Anne Milan and Nadine Laflamme (Statistics Canada). Ethnocultural and sociodemographic characteristics of the population who are grandparents co-residing with their grandchildren.
5. Rachel Margolis (University of Western Ontario). A demographic analysis of the grandparent phase of life.

Thursday, May 29, Time: 5:00 PM 7:00 PM
Location: TBA

President's Reception

FRIDAY, May 30

Friday, May 30, 8:30 AM - 10:15 AM

Location: Glenridge Building A - 162
Session 3.1: SOCIAL DIVERSITY

Session Chair: Lisa Kaida (Memorial University)
